

Eagleview Estates Windows Guide

High River, AB

To maintain a cohesive and visually consistent appearance throughout the complex, all windows must follow the approved design standard. Consistency in exterior elements helps preserve the overall aesthetic of the community, protects property values, and ensures that individual modifications do not detract from the shared appearance of the complex.

For this reason, all replacement or new windows must be white and must match the style shown in the approved image guideline provided below. Any window installation that does not comply with these guidelines will be denied approval and/or will be required to be removed and replaced with a window that meets the approved standard.
